E-Content Platform for Heritage and Science

You are in: [Home](#)

What is an E-Contents Platform?

We analyze how to address portability of existing cultural dissemination assets such as Science and Heritage museums on a digital platform. In particular, we address the problem of e-contents for Science and Heritage popularization, i.e. of making accesible on the net the kind of experiences which can raise the awareness of the youngsters and the laymen in these areas. Special emphasis goes also in the direction of experimenting with existing solutions for enhancing digitally the fruition of cultural artifacts.

This platform is an archive of cultural and scientific contents in digital format. In particular it includes some samples from the Archeological Museum Hyderabad, Modern collection and more.

Access to archives

L'archivio dell'indianista Luigi Pio Tessitori (1887-1919)

L'archivio comprende il materiale fotografico e i documenti inediti dell'indianista Luigi Pio Tessitori conservati oggi a Reana del Rojale nella residenza del nipote dr. Guido Peano.

Indian Contribution to the Formation of Modern Science - A Digital Library

The project consists of a database with an annotated bibliography and a digital archive with transcriptions and images of relevant manuscripts from European and Indian libraries.

Tessitori and India

The main part of the project consists of materials from the archives of the Italian indologist Luigi Pio Tessitori (1887-1919) conserved at the "Reana del Rojale" Civic Library in the residence of the indologist's nephew, Dr. Guido Peano, at Reana del Rojale.

Paritosh Sen, On the Swing, Birla Archaeological and Cultural Research Institute

OBJECT: painting

TITLE: On the Swing

CREATION:
Creator Name: Sen, Paritosh

SUBJECT:
Identification: two women on a swing

Description:

On a flat background divided into three geometrical areas, each one distinguished by a different shade of green, the painter depicts two Hindu women on a swing. The one on the right side is kneeling down on the swing, her body and her eyes turned to the woman sitting on the left side who has a red bindi on her forehead. They both wear a short red choli, a long scarf, and stretch pants that emphasize their prosperous figures.

What is an E-Content Platform?

We analyze how to address portability of existing cultural dissemination assets such as Science and Heritage museums on a digital platform. In particular, we address the problem of e-contents for Science and Heritage popularization, i.e. of making accessible on the net the kind of experiences which can raise the awareness of the youngsters and the laymen in these areas. Special emphasis goes also in the direction of experimenting with existing solutions for enhancing digitally the fruition of cultural artifacts.

This platform is an archive of cultural and scientific contents in digital format. In particular it includes some samples from the Archeological Museum Hyderabad, Modern collection and more.

Access to archives

- **L'archivio dell'indianista Luigi Pio Tessitori (1887-1919)**
L'archivio comprende il materiale fotografico e i documenti inediti dell'indianista Luigi Pio Tessitori conservati oggi a Reana del Rojale nella residenza del nipote dr. Guido Peano.
- **E-Vidya - The Indian Contribution to Modern Science**
The project deals with the contribution of the most significant Indian sciences to the formation of modern science. The project includes a database with an updated bibliography and a digital archive with transcriptions and images of the most relevant manuscripts kept in the European and Indian libraries.
- **Tessitori and India**
The main part of the project consists of materials from the archives of the Italian Indologist Luigi Pio Tessitori (1887-1919) conserved at the "Vincenzo Joppi" Civic Library in Udine and at the residence of the Tessitori's nephew, Dr. Guido Peano, at Reana del Rojale.
